

Mohamad Hormati

Senior Frontend Developer | Full-Stack Capable

m.hormati1996@gmail.com • (+98) 920 301 3260 • Tehran, Iran • github.com/mohammad-hormati

PROFILE

A passionate Frontend Developer with 5+ years of experience building scalable, high-performance web applications. Specialized in React, Next.js, and TypeScript with a strong focus on clean code, reusability, and responsive design. Recently expanded into full-stack development with Node.js, Express, and MySQL, along with hands-on DevOps experience using Docker and CI/CD pipelines. Known for being a fast learner who embraces new technologies, leverages AI tools effectively, and consistently delivers quality solutions through smart research and problem-solving.

SKILLS

Frontend: HTML5 · CSS3 · SCSS · JavaScript (ES6+) · TypeScript · React.js · Next.js · Redux · Redux Toolkit · Zustand · React Query · Framer Motion · PWA · Bootstrap · MUI · Tailwind CSS

Forms & Validation: React Hook Form · Yup · Axios

Backend (Basic): Node.js · Express.js · Prisma · MySQL · MongoDB · PostgreSQL

DevOps & Tools: Docker · Docker Compose · GitHub Actions · CI/CD · Linux · SSH · VPS · Git

Soft Skills: Fast learner · Strong research skills · AI-assisted development · Clean code · Problem solving

PROFESSIONAL EXPERIENCE

Freelance Frontend & Full-Stack Developer | 2024 – Present

Remote

- **Beauty Salon Telegram Bot & Web App** — Built a full-stack appointment booking system for a women's beauty salon. Developed a Telegram bot backend (Node.js, Express, Prisma, MySQL) and an admin web panel (Next.js, TypeScript, Tailwind). Features include appointment scheduling, portfolio showcase, consultations, and various service links. Set up Docker containerization and GitHub Actions CI/CD pipeline for automated deployments.

Metodata — Frontend Developer | 2021 – 2024

Tehran, Iran

- **Social Media Monitoring Dashboard** — Built a comprehensive business intelligence platform for social media analysis, competitor tracking, and campaign management using React, Redux Toolkit, MUI, and ApexCharts. Implemented dark/light mode, multi-language support (i18n), and dynamic network graph visualizations using Sigma.js and Graphology.
- **Cryptocurrency Analysis Website** — Developed a fully responsive crypto analytics platform covering technical analysis, on-chain data, and social news using React, TypeScript, and MUI. Focused on reusable component architecture.
- **Swarm Dashboard** — Built a national event prediction and analysis dashboard using React, Tailwind, D3.js, and Redux, enabling users to dynamically create and manage events.
- **Social Resilience Dashboard** — Developed a social event resilience measurement platform featuring customized Agenda Setting charts built with Recharts.
- **Zirobot Web App** — Created a Twitter bot detection application with dynamic SVG animations to visualize user account data and bot probability scores.

- Stance Detection App — Developed a text stance detection platform with a multi-step authentication and user registration flow.
- Abundus Token Website — Built a bilingual (English & Arabic) cryptocurrency business website using Next.js, Tailwind, and i18next with engaging responsive animations.

Freelance Frontend Developer | 2020 – 2021

Tehran, Iran

- Management Dashboard — Built a member management panel for Maskan Bank with role-based access control, member profiles, and payment tracking using React and Bootstrap.
- Caracaltech Website — Contributed to a dynamic car remapping showcase website with a modern, responsive design using React and TypeScript.

EDUCATION

Bachelor's Degree in Biomedical Engineering — Azad University, South Branch, Tehran | 2015 – 2019
